

Intrinsic Quality Sites

MTSHA has identified several intrinsic qualities found along the 200-mile Midland Trail / US Route 60 State and National Scenic Byway. The Trail's intrinsic qualities identification is necessary to successfully complete our Corridor Management and Signage Plans. These qualities fall under six categories (R)ecreational, (S)cenic, (N)atural, (H)istorical, (C)ultural and (A)rcheological. We are seeking public input regarding these qualities. Please review our intrinsic qualities list and let us know if you have any suggestions on the comment form below.

Public Feedback Card

As mentioned, we are seeking public feedback on our identified intrinsic qualities, possible additions to this list and important sites along the Trail, which should be properly signed and interpreted. Also, anyone with special knowledge of any site along the Trail please let us know. Please send the completed form to MTSHA / 405 Capitol Street, Suite 409 / Charleston, WV 25301. If you have any questions or comments we can be reached by phone at (304) 343-6001. Thank you very much for your participation.
